

Age Care Association

Hospitals

The following is a list of some of the hospitals on the Costa del Sol. As the population of the Province of Malaga continues to increase it is not possible to provide an up to date list of the public and private hospitals in the area. New hospitals will probably be constructed in the future to meet demand.

Note: From time to time hospitals may have additional telephone numbers. Check the free English press for details of other hospitals and extra telephone numbers.
